The Med Spa Social Media System

STOP POSTING RANDOMLY · START SHOWING UP STRATEGICALLY · CONVERT FOLLOWERS TO PATIENTS

1

The Med Spa Social Media Strategy

Why consistency beats virality — and the exact framework that converts followers to patients

THE BRUTAL TRUTH ABOUT MED SPA SOCIAL MEDIA

Most providers post when they feel like it, stop when they get busy, and wonder why Instagram isn't bringing them patients. The algorithm does not reward talent. It rewards consistency. A provider who posts mediocre content three times a week beats a provider who posts perfect content once a month — every single time.

The one metric that actually matters

STOP CHASING FOLLOWERS. START TRACKING THIS.

The only number that matters on your med spa Instagram is **profile visits to booking page clicks**. Not follower count. Not likes. Not reach. If 1,000 people see your post and zero click to book — that post failed regardless of how many hearts it got. Every caption, every graphic, every story should have one job: move someone one step closer to booking.

The 4 content types — your entire strategy in one framework

1

Educational — 40% of your content

Teach something. Answer a question patients Google. Explain how a treatment works. Bust a myth. This builds trust and Google findability simultaneously. Educational content is shared more than any other type — which grows your audience for free.

2

Social proof — 30% of your content

Before/after with consent. Patient testimonials. Review highlights. Results. This is what converts a follower who's been watching you for 3 weeks into someone who finally books. Never skip this category — it's your sales team working 24/7.

3

Behind the scenes — 20% of your content

Your face. Your team. Your space. Your day. People book providers they feel like they know. BTS content builds the relationship that converts. This is also the hardest content for competitors to copy because it requires you to actually show up as a human being.

4

Promotional — 10% of your content

Direct offers. Specials. New services. Open appointment slots. This should be the smallest percentage — but providers who never promote leave money on the table. One direct CTA post per week is appropriate. More than that and followers tune you out.

3–5x

Posts per week — the consistency sweet spot

7–9pm

Best posting time for med spa audiences

First 3 lines

Of your caption decide if they read the rest

THE CHATGPT PROBLEM — AND YOUR ADVANTAGE

Anyone can generate a generic "Botox is amazing!" caption with AI. What they cannot generate: a caption that sounds like a real provider, references the specific experience of sitting in your chair, uses your city name naturally, stays compliant with FTC medical advertising rules, and ends with a CTA that actually converts. That specificity is what separates your content from everyone else's — and it's exactly what this system delivers.

2

The 4-Week Content Calendar

What to post every single day — copy this exactly or adapt it to your services

● Feed Post ● Story ● Reel Rest day

Week 1 — Foundation week

MON	TUE	WED	THU	FRI	SAT	SUN
Day 1 FEED POST Educational: "What Botox actually feels like" — demystify for first-timers	Day 2 STORY Poll: "Have you ever had Botox?" — engagement + audience research	Day 3 REEL Before/after transformation — show the result, not the needle	Day 4 <i>Rest — engage with comments and DMs</i>	Day 5 FEED POST Promotional: "Friday spots open this week" — link in bio CTA	Day 6 STORY BTS: Day in the practice — treatment room, team, real moments	Day 7 <i>Rest</i>

Week 2 — Trust building week

MON	TUE	WED	THU	FRI	SAT	SUN
Day 8 FEED POST Myth bust: "Botox makes you look frozen" — false. Here's the truth.	Day 9 REEL Meet the provider — your face, your credentials, your why	Day 10 STORY FAQ box: "Ask me anything about [service]" — answer in stories	Day 11 FEED POST Social proof: Patient review highlight — screenshot or graphic	Day 12 <i>Rest — respond to story replies</i>	Day 13 REEL Educational: "The difference between Botox and filler" — explainer	Day 14 <i>Rest</i>

Week 3 — Conversion week

MON	TUE	WED	THU	FRI	SAT	SUN
Day 15 FEED POST	Day 16 STORY	Day 17 REEL	Day 18 FEED POST	Day 19 STORY	Day 20 <i>Rest</i>	Day 21 <i>Rest</i>

Educational: "What to expect at your first Botox appointment" — reduce anxiety	Countdown: "3 spots left this week" — urgency + booking link	Before/after + patient reaction — emotional, real, shareable	Promotional: New service or package announcement — clear pricing	BTS: Consultation day — show the consultation process
---	--	--	---	--

Week 4 — Community week

MON	TUE	WED	THU	FRI	SAT	SUN
Day 22 FEED POST Social proof: Multiple review highlights — carousel post	Day 23 REEL Team or practice culture — who you are, not just what you do	Day 24 STORY This or That: "Natural vs. defined brows" — fun engagement	Day 25 FEED POST Educational: Seasonal content — "Summer skin prep" or "Holiday glow"	Day 26 STORY Booking link push: "Last spots for the month" — direct CTA	Day 27 <i>Rest</i>	Day 28 <i>Rest — plan next month</i>

THE 28-DAY SYSTEM REPEATS — JUST SWAP THE TOPICS

The structure stays the same every month. What changes is the topic within each content type. Month 2: same framework, different service focus (GLP-1, IV therapy, skincare). The Canva templates in this kit match every content type so you're never designing from scratch — just swapping text and photos.

3

30 Caption Templates — Copy, Customize, Post

Every caption is compliant, conversion-focused, and written in a real provider voice

Educational captions — build trust and Google findability

EDUCATIONAL — BOTOX TIMING

Here's something nobody tells you before your first Botox appointment 🙌 Results don't show up immediately. Days 1–3, nothing. Days 3–7, you start to notice it. Day 14 is when you see the full result. If you're in that first week wondering if it worked — it did. Give it time. This is exactly why I include a complimentary 2-week follow-up with every appointment. We look at your results together and fine-tune if needed. Ready to book? Link in bio 💕 #botox #medspa #aesthetics #botoxresults #injector

Why it works: answers a real anxiety, educates without selling, ends with a soft CTA

EDUCATIONAL — FILLER MYTH BUST

The filler look you're afraid of? That's not filler. That's too much filler in the wrong places. When done correctly, filler restores volume you've naturally lost over time — so you look like yourself, just more rested. My approach: conservative, intentional, and always reversible. You will never leave looking overdone. Complimentary consultations available. Link in bio to book yours 💕 #fillerinjectors #dermalfiller #lipfiller #naturalfiller #medspa

Why it works: addresses the #1 objection to filler before the patient even raises it

EDUCATIONAL — GLP-1 HONEST

Honest talk about GLP-1 medications (because you deserve the full picture) 📌 ✅ They work. Clinically proven 10–15% average body weight loss. ✅ They're medically supervised — this isn't a quick fix, it's a program. ✅ The first month is about tolerance, not results. Stick with it. ⚠️ They're not for everyone. We screen carefully before prescribing. ⚠️ Side effects are real. We manage them with you. ⚠️ Stopping without a maintenance plan often leads to regain. If you're curious whether you're a candidate — DM me or link in bio for a complimentary consultation. #glp1 #semaglutide #weightloss #medicatedweightloss #medspa

Compliant — no guaranteed results claim, no exaggerated promises. Honest builds trust.

Social proof captions

SOCIAL PROOF — REVIEW HIGHLIGHT

"I was so nervous for my first Botox appointment but [Provider] made me feel so comfortable. She explained everything, checked in the whole time, and my results are so natural. I'll never go anywhere else."

★★★★★ This message makes everything worth it 💖 If you've been thinking about your first appointment and nerves are holding you back — that's exactly why I built my practice the way I did. First-timers are my favorite. Book your complimentary consultation: link in bio #medspa #botox #firsttimebotox #aesthetics #patientlove

Always get written consent before sharing any patient quote or photo

Behind the scenes captions

BEHIND THE SCENES — PROVIDER STORY

A day in the life looked a little different for me than I imagined when I started this practice 💖 I thought I'd spend my days doing treatments. What I actually do: treatments + team management + marketing + patient communication + medical school + building [Practice Name] into something I'm genuinely proud of. Some days are hard. Most days I can't believe this is my life. If you're building your own practice and wondering if it's worth it — it is. Keep going. To my patients: thank you for trusting me with your care. It never gets old. #medspa #medspabusiness #aestheticprovider #medspaboss #hellogorgeous

Personal, real, relatable — this is the content that builds loyal followers who become loyal patients

Promotional captions

PROMOTIONAL — OPEN SPOTS

A few spots opened up this week and I wanted you to see them first 📌 📅 [Day]: [Time] — [Service] 📅 [Day]: [Time] — [Service] 📅 [Day]: [Time] — [Service] If you've been thinking about [Service] — this is your sign. Book directly: link in bio (spots go fast, first come first served) Questions? DM me — I respond personally 💖 #botox #medspa #[yourcity] #openappointments #aesthetics

Fill in your actual open slots — this posts in 2 minutes and books appointments the same day

Hooks That Stop the Scroll

The first line of every caption decides if they read the rest — these 30 hooks work for med spas

THE HOOK RULE — SAY THE MOST INTERESTING THING FIRST

Instagram shows 2–3 lines of your caption before "more." Those lines are your entire pitch. If the first line doesn't stop the scroll, the rest doesn't exist. Every hook below is designed to create curiosity, challenge an assumption, or promise a specific payoff that makes the reader want to keep going.

Educational hooks

- EDU** Here's something nobody tells you before your first Botox appointment 📌
- EDU** The reason your filler isn't lasting as long as you expected (it's not what you think)
- EDU** I'm going to explain exactly what happens to your face between ages 25 and 45 📌
- EDU** Botox takes 14 days to fully work. Here's what to expect every single day in between.
- EDU** The difference between a \$200 Botox appointment and a \$600 one (it's not the units)
- EDU** Asking for "natural" filler means something very different depending on who you ask 📌

Myth-busting hooks

- MYTH** The filler look you're scared of? That's not what filler looks like when it's done right.
- MYTH** Botox is addictive. False. Here's what's actually happening when patients "can't stop."
- MYTH** You're too young for Botox. Also false — and here's the science behind why.
- MYTH** Skincare can replace injectables. I love skincare. But let me be honest with you 📌

Social proof hooks

- SOCIAL** She cried happy tears when she saw her results. I'll never get used to this. ❤️

SOCIAL "I've been going to injectors for 10 years and this is the first time I felt truly heard." ❤️

SOCIAL She was nervous. She almost cancelled. This is what happened instead. 📌

SOCIAL Before and after this treatment — same person, same lighting, 4 weeks apart. 📌

Promotional hooks

PROMO A few spots opened up this week. First to DM gets them. 📌

PROMO If [your city] is on your list this season — I have something for you. 📌

PROMO We don't do a lot of specials. This is one of the rare ones. 📌

Behind the scenes hooks

BTS What a Tuesday in a med spa actually looks like (it's not what Instagram shows you)

BTS I've been building this practice for [X] years. Here's what I wish I'd known on day one.

BTS The part of running a med spa nobody shows on Instagram 📌

Compliance Rules for Med Spa Social Media

The FTC and FDA rules ChatGPT doesn't know — that protect your license and your business

THIS IS YOUR LEGAL PROTECTION — READ BEFORE YOU POST ANYTHING

Medical aesthetic providers are held to stricter advertising standards than general businesses. Violating FTC or FDA advertising guidelines can result in warning letters, fines, and in serious cases, license implications. Every caption template in this system was written with these rules in mind. Here's what you need to know.

The non-negotiable rules

RULE

No guaranteed results

✗ NEVER SAY THIS

"Botox will eliminate your wrinkles"

✓ SAY THIS INSTEAD

"Botox softens the appearance of wrinkles for most patients"

RULE	✗ NEVER SAY THIS	✓ SAY THIS INSTEAD
No cure or permanent claims	"Permanently remove fat with cryolipolysis"	"Reduce targeted fat cells — results are long-lasting with a healthy lifestyle"
Before/after photo rules	Unequal lighting, makeup, or angle between photos	Same lighting, angle, no makeup — add: "Individual results may vary"
Testimonial rules	"My patients always see amazing results"	Real patient quote + "Results vary. This patient's experience is her own."
Off-label claims	"Botox cures migraines" (unless FDA-approved for that)	Only claim FDA-approved indications in marketing materials
Pricing transparency	Advertising "starting at \$X" if nobody actually qualifies for that price	"Starting at \$X for [specific service or unit count]" — be specific

Before/after photo consent — required every time

YOUR PHOTO RELEASE MUST COVER

- Explicit permission to use the photo on social media — not just "I consent to treatment"
- Which platforms: Instagram, Facebook, website, Google
- Whether you can tag the patient or keep them anonymous
- Duration of consent and right to revoke in writing
- Keep a signed copy in the patient chart — not just a digital checkbox

THE DISCLAIMER THAT PROTECTS YOU — ADD TO EVERY BEFORE/AFTER POST

"Individual results may vary. [Treatment] results depend on individual factors including age, skin type, lifestyle, and treatment plan. This patient's results are her own and are not guaranteed for all patients. Complimentary consultations available to discuss what's right for you."

6

The Batching System — One Day a Month, Done

How to create an entire month of content in 3 hours so you never post under pressure again

WHY YOU'RE INCONSISTENT — AND IT'S NOT YOUR FAULT

Providers don't fail at social media because they're lazy. They fail because they try to create content the same day they post it — when they're tired, between patients, with no ideas and no time. The batching system removes all of that. You create everything once a month in a focused session. Then you execute daily in under 5 minutes.

The monthly batching session — 3 hours, once a month

1

Hour 1 — Content planning (30 min) + Photo collection (30 min)

Open the 4-week calendar template. Fill in your specific topics for this month. Collect all photos you've taken this month — before/after (consented), BTS shots, team photos, product photos. Drop them into a Canva folder.

2

Hour 2 — Caption writing (60 min)

Open this playbook. Pick the caption templates that match your content plan. Customize each one — add your city, your service name, your specific offer. 12 captions × 5 minutes each = 60 minutes. You now have two weeks of content written.

3

Hour 3 — Graphic creation (60 min)

Open your Canva template pack. Drop your photos into the pre-designed templates. Update the text. Export. 12 graphics × 5 minutes each = 60 minutes. Done.

4

Schedule everything — 20 minutes

Load all content into Later, Buffer, or Meta Business Suite (free). Schedule to post at 7–9pm on posting days. Turn on auto-publish. Walk away. Your content posts itself for the next 28 days.

Daily execution — 5 minutes per day

WHAT YOU DO EACH DAY AFTER BATCHING

- **Morning (2 min):** Check comments from yesterday — respond to every one. Comments boost algorithm visibility significantly.
- **Midday (1 min):** Post one story — a quick poll, a question box, or a photo from the day. Stories don't need to be perfect. They need to be real.
- **Evening (2 min):** Engage with 5 other accounts in your niche — comment something real on their posts. This signals to Instagram that you're an active community member and boosts your own visibility.

THE TOOL STACK — ALL FREE OR NEARLY FREE

Canva (free): design all graphics. **Later (free up to 30 posts/mo):** schedule posts. **Meta Business Suite (free):** schedule to Instagram and Facebook simultaneously. **Google Sheets (free):** your content calendar lives here. **Total cost: \$0.** The only investment is 3 hours once a month.

THE CAPTION THAT SELLS THIS SYSTEM TO YOUR AUDIENCE

I used to post when I felt inspired.

Which meant I posted maybe twice a month, always felt guilty, and never saw real growth.

Now I batch my entire month of content in one Sunday afternoon and schedule everything in advance.

3 hours. 28 days of content. Done.

The difference it's made in my practice? Consistent inquiries. Consistent bookings. Consistent growth.

I put the exact system I use — the calendar, the caption templates, the Canva workflow — into a complete guide. Link in bio if you want it.

#medspa #medspabusiness #socialmediatips #aestheticprovider #contentcreator

Use this caption to sell the Social Media System product itself — Danielle posts this as herself, talking about her own batching practice
